

Lucrezia Soft

DIVANI

2021

Antonio Citterio

Descrizione

Lucrezia Soft è una serie di divani dall'immagine morbida grazie a imbottiture particolarmente generose e dettagli che ne ammorbidiscono le geometrie. I numerosi elementi che compongono la serie, divani lineari e componibili in due profondità e molteplici dimensioni, sono previsti in due versioni. La prima caratterizzata dal cuscino seduta con fascia e profili, la seconda dal cuscino seduta impreziosito da impunture capitonné. Entrambe offrono una doppia opzione per i cuscini schienale: una versione più compatta per chi desidera una seduta più sostenuta e formale, grazie al supporto lombare integrato nel cuscino; una versione più morbida con cuscini in piuma, che restituiscono un'immagine più accogliente e rilassata. I rivestimenti in tessuto o pelle sono arricchiti da ricercati dettagli "haute couture": profili in ecopelle per le varianti in tessuto, raffinate cuciture "a profilo" per quelle in pelle. Lucrezia Soft, nella versione con cuscino a fascia, è disponibile anche a misura. Tutti gli elementi possono infatti avere dimensioni personalizzate in larghezza e profondità, mantenendo inalterate tutte qualità formali e di comfort.

Informazioni tecniche

Telaio interno

tubolari e profilati d'acciaio

Imbottitura telaio interno

schiuma di poliuretano flessibile a freddo Bayfit®, fodera in fibra di poliestere

Imbottitura cuscino sedile

poliuretano sagomato a densità differenziata, fibra di poliestere, fodera in fibra di poliestere e cotone

Cuscino schienale (LZ60C-LZ90C)

piuma sterilizzata, fodera in cotone, tipologia a fascia

Cuscino schienale (LZC60_55C-LZC72_55C-LZC80_55C)

fibra di poliestere, fodera in cotone, tipologia a fascia

Basamento

fusioni ed estrusi d'alluminio

Puntali

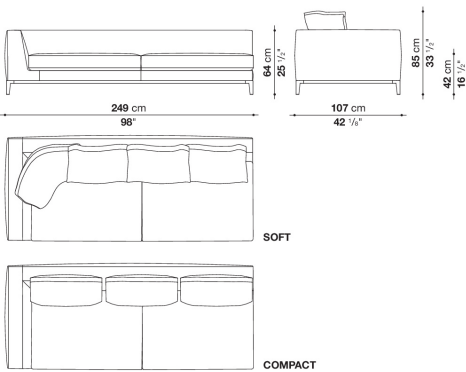

materiale termoplastico

Rivestimento

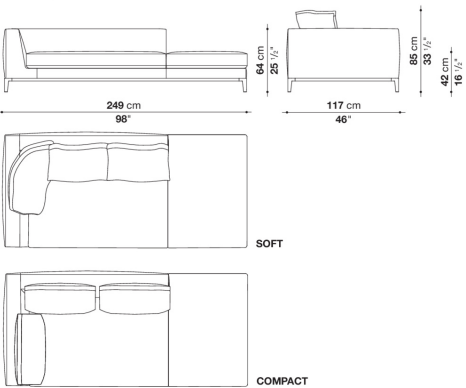

tessuto (profili in ecopelle) o pelle (cuciture a profilo)
